

Homestay COVID-19 Safety Plan

Please familiarise yourself and your family with your State health authority's latest advice. - ([NSW](#) and [Victoria](#))

Government health rules can change quickly and frequently, please check back often.

If any family member shows COVID-19 symptoms, please get tested immediately.

- Observe your State health authority's advice on testing, reporting, and self-isolation.
- Please check your State health authority's rules on who is a close contact, and whether your family members will need isolation.

If anyone in your family tests positive:

You must inform the following:

- Your other family members, including your homestay student;
- Us; and
- (If available) contact person at your student's college.

Continue to observe hygiene and physical distancing when out and about:

- Keep 1.5m physical distancing;
- Masks on public transport and other government mandated settings.
- Wash hands and use hand sanitisers.

We recognise that homestay is not a workplace, and you know your family's needs best.

Please feel free to add other reasonable measures appropriate to your family's needs.
